Design with a passion for inter connectivity of components, work surface and storage allow office environment specialist to create the right workstation best suited to each corporate client needs.

Adding fabric becomes easy through clip on metal fabric tiles.

All panels and desking workstations include cable management systems to carry power / voice / data from floor / wall / ceiling access points to the desktop unobtrusively, with easy access and maintenance, and a wide variety of power / data / voice outlet options suitable for most countries.

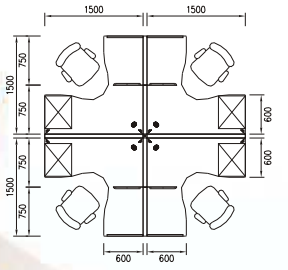

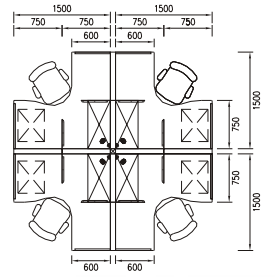

Stackable or add - on approach has made panel height adjustment possible in the shortest time.

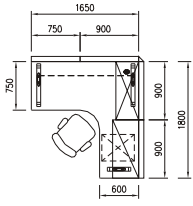

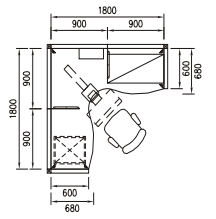

Highly functional rail tile design for the attachment of various panel accessories.

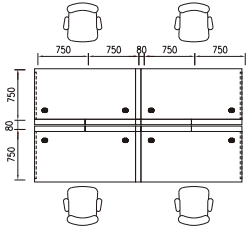

Hanging opened shelf for files and folders. Easy access and within reach.
